

LADWP Awards KDG Construction Consulting Construction Management Services Contract for the Phase 9/10 Project of the Owens Lake Dust Mitigation Program

LOS ANGELES, CA, November 21, 2015 – The Los Angeles Department of Water and Power (LADWP) has selected KDG Construction Consulting to provide construction management services for the Phase 9/10 Project of the Owens Lake Dust Mitigation Program. Since 2000, KDG has provided construction management services for the Owens Lake Dust Mitigation Program. This contract award has a construction value of up to \$240 million over a three year period, for services to be provided at Owens Lake in Keeler, California.

Under this contract, KDG will provide the professional construction management services and related support services needed to assure compliance with the terms of the agreement between LADWP and Great Basin Unified Air Pollution Control District to control dust at Owens Lake. The Phase 9/10 Project consists of the installation of dust control methods such as gravel, shallow flooding, and vegetation on 3.62 square miles of dry lake bed.

About KDG:

KDG Construction Consulting is an established Minority and Women-Owned Business Enterprise (MBE /WBE) and is certified by the state of California as a Small Business Enterprise (SBE) with a staff of project and construction management professionals. Over the past five years, KDG has coordinated and managed the construction of more than \$2 billion in public works and capital improvement projects. KDG is focused on providing project and construction management services for multiple market sectors including aviation, transportation, and water and power infrastructure.
